Juego de Memoria

En este juego de memoria los niños y niñas pueden reconocer e identificar las imágenes que tienen relación.

Lo primero es validar que el niño reconozca todas la imágenes.

Luego se recorta la carta por la silueta y se da la vuelta ubicando en desorden para que los pequeños puedan encontrar el par.

En caso de encontrar la pareja el niño se queda con las cartas y quién acumula más cartas gana.

Se puede jugar entre 2 o 3 integrantes.
